DETAILED ACTION

Allowable Subject Matter

1. Claims 3, 5-10, 14-25, 27, 29-32 and 35-44 are allowed over the prior art.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest a computer system which comprises a site generating component, wherein the site generating component, claim data analyzing component and claim rehabilitation component enable claimants to communicate, without action by personnel of the one or more insurance companies, directly with third party providers, not affiliated with the one or more insurance companies, of the services related to loss recovery. The Borghesi patent reference US Patent Number 5,950,169 teaches that insurance company appraisers may contact repair shops, salvage yards and other support industries (Borghesi: Col. 2, Ln. 30-50 and Col. 4, Ln. 37-46). However, Borghesi does not teach or suggest a system which enables claimants to communicate directly with third party providers, not affiliated with the one or more insurance companies, of the services related to loss recovery.

The Foremost non-patent reference teaches that insured can file claims on-line, however, there is no teaching or suggestion in this reference that an insured can communicate directly with third party providers, not affiliated with the one or more insurance companies, of the services related to loss recovery.

The Middleman non-patent reference teaches that people desiring to purchase insurance coverage can purchase insurance online, however, Middleman does not teach or suggest that an insured can communicate directly with third party providers, not affiliated with the one or more insurance companies, of the services related to loss recovery.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Japanese Patent Number 2007-065882 teaches a web linkage system for insurance transactions.
